

DATA-TRUST SAMPLE PACK

From one number to defensible evidence.

A worked example of how EcoVeraZ turns a single sustainability figure into an evidence-backed, verification-ready trust record — traceable, scored, and defensible.

Evidence-backed
source on every figure

Verification-ready
prepared for review

Decision-ready
board & auditor grade

WHAT'S INSIDE

- 1 · The figure and its Data-Trust Score
- 2 · The evidence chain, reading to decision
- 3 · The Data-Trust Certificate
- 4 · What it is — and is not

FROM A NUMBER TO ITS EVIDENCE

Every figure carries its evidence.

SAMPLE FIGURE

Scope 1 Emissions

1,245 tCO₂e

Reporting period: May 2025 (sample)

Source type **Measured + reported**

Methodology **GHG Protocol**

Data-Trust Score **92 / 100 · High**

Each figure is clickable in the platform, opening the evidence trail shown opposite.

EVIDENCE CARD

Behind the number

-  **Utility invoice**
Uploaded · document on file
-  **Meter data**
Sensor-backed where connected
-  **Quality & review**
Completeness checks passed
-  **Reference check**
Triangulated against references

WHY IT MATTERS

When a board, auditor or regulator asks "where did this number come from?", the answer is one click — an open trail with source type and a confidence signal, not a week of work.

THE EVIDENCE CHAIN

From the first reading to the final decision.

- 1 Reading**
Meter value / utility invoice captured with source type.
- 2 Evidence**
Bound to its supporting artefact, with status.
- 3 Quality check**
Plausibility and completeness verified.
- 4 Triangulation**
Cross-checked against external references.
- 5 Data-Trust Score**
Transparent confidence signal on the figure.
- 6 Certificate**
Verification-ready summary of integrity.
- 7 Report**
Board-grade, defensible disclosure.
- 8 Decision**
Acted on with the evidence one click away.

TRIANGULATION

Internal readings
meters · facility data

External references
benchmarks · datasets

TAMPER-EVIDENT

Timestamped proof layer.
Audit-supportive trail.
Continuous where connected.

THE CERTIFICATE

Trust you can hand to an auditor.

REPRESENTATIVE · SAMPLE ENTERPRISE

**Data-Trust Certificate**

- ✓ Recorded — time-stamped, audit trails
- ✓ Ready — structured for disclosure
- ✓ Integrity — timestamp indicators
- ✓ Connected — lineage and context

What this is — and is not

EcoVeraZ structures evidence, scores confidence and prepares verification-ready outputs and Data-Trust Certificates of integrity. It is not an ESG rating agency and does not issue assurance opinions; it does not validate, certify or file reports. Validation, assurance and filing remain with your organisation and your appointed third parties. All figures here are synthetic and illustrative.
